## **BROKER'S COMMENTS**

For a yacht to look so stunning - like new - after so much use does not just happen by accident. It takes special owners and an occasionally deep pocket. CUILAUN demands it, deserves it, and pays it back and more. She is quite simply one of the most special yachts ever conceived at this size. Since she first kissed the waters of the Careloch in 1970, her original Irish owners have cared for her every need, and in return she has carried them and their friends speedily, comfortably, safely and elegantly over deep and blue water so often that they might be excused forgetting how many times they've crossed the Atlantic Ocean. Along the way she has been a regatta and cruising awards winner. After 50 years of first ownership, it's time for a very lucky second custodian to guide CUILAUN into her second half century.

## 2016

- Deck recaulked
- Coach roof re-decked

#### 2015

- Varnish stripped and rebuilt
- Mizzen mast re painted

#### 2014

- All standing rigging replaced

Through the 1950s and 1960s, British yacht designers found various solutions in appeasing their clients' post-war demands for greater comforts and space by increasing hull volume while trying to keep an eye on looks. Arguably it was James McGruer of Scotland who achieved the greatest aesthetic harmony in this task by gaining volume via the American norm of increased beam; something perhaps infused from his 1930s training at the Herreshoff yard in Bristol, Rhode Island, and in his family yard's building of the Sparkman & Stephens-designed beamy 43 ft centreboard yawl FAIRWYN in 1957, followed immediately by his own interpretation of a beamy, full keel yawl, SULE SKERRY.

There followed down McGruer & Company's Clynder slipways a line of gorgeous and now legendary, beamy and long-ended James McGruerdesigned cruiser-racer yawls: WESTWARD OF CLYNDER (1960), MARGUERITA HELENA III/ FRENESI (1961), COIGACH (1963), and culminating before James retired with the 48-footer RINAMARA of 1968 for repeat Irish client Peter Odlum.

When James's son, George, stepped up to the drafting board after RINAMARA'a launch, he inherited a wonderful provenance of well-proven excellence for inspiration; and to build his creations, a highly skilled workforce admirably managed by members of his family.

Straight out the blocks - with further influence perhaps from his father's 67 ft ©2025 Iain McAllister/ Sandeman Yacht Company Ltd. International 13.5-Metre Cruiser Racer yawl STORNOWAY of 1963, and the McGruer-built Sparkman & Stephens 52ft sloop GABRIELLE III (now TINTOO VI) of 1967 - George designed this masterpiece ketch, again for Dublin Bay owners known to the yard through previous ownership of the McGruer 8-Metre Cruiser-Racer NAMHARA. And a further two near sisters followed into the early 1970s: CERESIO (now TALISKER MHOR) and GLORY B IV (now BORDER LEGEND). With these fine ketches, George McGruer added his own je ne sais quoi, unfettered by the radical influences of the IOR Rating Rule, yet thoroughly modern yachts - perhaps the true predecessors of what we now know as 'Spirit of Tradition'.

Since CUILAUN (originally CUILAUN OF KINSALE) first kissed the waters of the Gareloch in 1970, her original Irish owners have cared for her every need, and in return she has carried them and their friends speedily, comfortably, safely and elegantly over deep and blue water so often that they might be excused forgetting how many times they've crossed the Atlantic Ocean. Her first long distance cruise was in 1971 from Dublin Bay to the Mediterranean, spending winter 1971-72 at Palma de Mallorca. CUILAUN has become as well known in her home waters of Ireland and the UK as she is in the Caribbean, and in Maine where she is affectionately known as "The Varnished Two-Sticker". This writer has been lucky enough to encounter her at Cowes, at Kinsale and Glengarriff, at Clynder, Rosneath and Rhu when she returned to her birthplace for a mid-life refit, and at Camden and Brooklin. She won the 1979 Transatlantic race from New York to Cork, was awarded the coveted John Parkinson Trophy of the Cruising Club of America in 1988, was class winner at Antigua Classic Week 2004, and overall winner at the British Classic Yacht Club's Panerai Classics Week 2017.

For a yacht to look so stunning - like new - after so much use doesn't just happen by accident. It takes passionate owners and an occasionally deep pocket. CUILAUN demands it, deserves it, and pays it back and more. She is quite simply one of the most special yachts ever conceived at this size. After 50 years of first ownership, it's time for a very lucky second custodian to guide her into her second half century.

#### Specification

## CONSTRUCTION

Carvel teak planking silicone bronze fastened to laminated afrormosia frame - Teak laid deck on plywood substrate

- Lead keel

- Teak superstructure
- Teak cockpit

#### Specification

## DECK LAYOUT, EQUIPMENT AND GROUND TACKLE

- 1 x Lewmar 16 halyard winch

- 1 x Anderson 18 2-speed mizzen staysail winch

The following have all been painted to match the rig:

- Furuno Radar

- External Iridium aerial

- B&G GPS aerial

- Furuno GPS aerial

- AIS GPS aerial

- 4G Digital yacht aerial

- Air horn (operated from helm pedestal)

Poles

- 2 x Painted spinnaker poles

- 1 x Painted jockey pole

SAILS

- North Marathon 3DL genoa, mainsail and mizzen (2014)

- North asymmetric spinnaker A1.5

- One Sails symmetric spinnaker S4 (2014)

- North storm jib

- North trysail

- GP Sails cruising tri-radial genoa (2018)

- GP Sails mizzen staysail (2019)

- GP Sails mizzen staysail (2015)

CANVASWORK

- 2 x Large sun awnings

- Sprayhood

- Mainsail boom covers

- Cover for liferaft canister

- 1 x 12 V Engine starting battery

- 3 x Fresh water tanks (Capacity TBA)

TANKAGE/ PUMPS

- 2 x Filled from deck

- Fuel: 190 US Gal / 720 L

- Mosquito net when ajar cover for forehatch

- 1 x 12 V Systems battery (eg for B&G system)

- 1 x Filled from watermaker, then by gravity to others

- Little Wonder  $24~\mathrm{V}$  watermaker (New membrane 2019) - Electric fresh or salt water vacuum heads pump (2020)

- Tek-Tank black water holding tank forward (16 US Gal / 60 L)

## Specification

## MECHANICAL, ELECTRICAL AND TANKAGE

## MECHANICAL

Engine

- Yanmar 4JH4THE (Rebuilt 2020)

- 2200 hrs

Drive Train

- Hydraulic stern tube to lubricate shaft and reduce noise

- Feathering Max prop (overhauled by Darglow 2018)

Steering system

- Whitlock Cobra direct drive.

- Auto pilot: Simrad AP25 double ram linear drive

ELECTRICAL

AC

2 x Shore power rings:

- 1 x 110v with inverter charger

- 1 x 230v with Mastervolt charger and Victron Inverter.

OTHER

- U-Line ice maker 110v

- Eberspächer Airtronic heater

DC

#### Specification

## NAVIGATION, ELECTRONICS AND COMMUNICATIONS

#### NAVIGATION & ELECTRONICS

- Ritchie steering compass on pedastal
- Furuno Navnet 3D with radar
- B&G H5000 complete system
- Mast head unit, twin speed logs, integrated with
- B&G Vulcan 9 Chartplotter at chart table

- AIS view at Furuno Navnet in cockpit, B&G Vulcan at chart table &  ${\rm H5000}$
- FFDs

#### COMMUNICATIONS

- Standard Horizon DSC VHF radio; handset in cockpit

#### Specification

#### SAFETY

- 2 x Electric bilge pumps with float switches
- 2 x Manual bilge pumps
- 3 x Kru auto inflate lifejackets; AIS transponders; overhead spray hood
- 6 x Seago manual inflate lifejackets
- 1 x Plastimo throw line
- 1 x MOB Jonbuoy module
- 1 x 8-Person Ocean Safety liferaft

- 1 x Offshore flare pack (expires end 2020)
- 1 x EPIRB McMurdo G5 smart finder
- 1 x Emergency VHF antenna
- 1 x Hydraulic wire cutter
- Day shapes: anchor ball, motor-sailing cone
- Nereus alarm system

#### Specification

## OTHER EQUIPMENT

- Zodiac classic 4 m tender with aluminum floor (2016)
- Mariner 9.9 outboard motor (2016)

- Swim ladder
- Mooring warps
- Fenders with covers
